

Transfusion Medical Technologist/MLS-Blood Bank Positions Available!!

City: Oak Lawn, IL and Park Ridge, IL

Job ID: 46721, 58547, 56091, 56762

Facilities: Advocate Christ Medical Center and Advocate Lutheran General

Department/Unit: Transfusion

Status-FTE: Full and Part-Time positions

Shift: PM and Night Shift available with rotating weekends and holidays

Advocate Health Care/ACL Lab is looking for an energetic, Medical Laboratory Scientist to join our state of the art facility. With our strong emphasis on patient safety, this candidate must demonstrate the ability to effectively communicate with a dynamic team of pathologists, nurses, physicians and associates. The right candidate will possess the ability to work both independently and as a collaborative member of the transfusion team. He/she will be required to demonstrate computer aptitude and a solid foundation of general blood product compatibility.

Job duties and responsibilities include but are not limited to:

- Under general supervision, perform transfusion service testing and related product testing as required by the department.
- Performs moderately and/or highly complex antibody identification.
- Maintains adequate inventory of supplies as required by the department.
- Participates in development and education.

Required Education and Experience:

- Bachelor's degree in a chemical, physical, biological, clinical laboratory science or medical technology program from an accredited institution
- MT (ASCP) or equivalent
- Minimum of two years of laboratory experience in high complexity testing preferred

***Shift Coordinator position (56762) requires additional duties as listed on the job description.**

***PM, night and weekend positions include a \$2, \$3 and \$1.75 shift differential.**
